To the kind folks at the FCC,

As a new subscriber of XM radio, I would like to say how pleased and amazed I am at this technology. Now just when I get to enjoy these wonderful programs I hear the NAB has a petition (04-160) that would dictate what I am permitted to hear! You have a problem with traffic and weather? Don't you have your hands full with the likes of Howard Stern? I respectfully urge the FCC to reject the NAB's petition 04-160 and to support American citizens' right to listen to programming we enjoy and deserve. We're talking traffic and weather here, not subversive terrorism. I know we're talking money here but it's a paid service and it's a competitive market, but this is the American way. Democracy and capitalism at its finest! Respectfully yours, Larry Neumann, Hard working American electrician.
